

Sysrepo roadmap

Michal Vaško

15. 11. 2023

Sysrepo virtual community event

- No formal roadmap
 - flexible development
 - no dedicated team
- Priorities
 - bugfixes (stability, robustness)
 - optimizations (performance)
 - new features
- New release every ~2 months
- IETF standards

- Generic datastore plugins (6 months)
 - MongoDB
 - redis

- ietf-subscribed-notifications & ietf-yang-push (2 weeks)
 - part of sysrepo instead of *netopeer2-server*
 - RESTCONF server, configured subscriptions & UDP notifications

QUESTIONS?
